

# Commodity intelligence

Market evidence connected to product specification, supply qualification, corridor capacity, capital timing and licence conditions.

## COMMISSIONING FRAME

---

### DECISION

Strategy, product and market-entry decisions

### TEAM PATTERN

Commodity analyst, technical lead, infrastructure and capital advisers

### STANDARDS

Public sources with institution, publication and vintage recorded

## WHAT YOU RECEIVE

- 1 Product and market frame
- 2 Supply and corridor evidence ledger
- 3 Scenario and sensitivity register
- 4 Decision implications and watchpoints

## ACCEPTANCE PACK

An attributed intelligence pack that keeps third-party scenarios distinct from Aurus interpretation.

Evidence boundaries and assumptions are stated before analysis. Performance values publish only with a dated approved source.
