

Environment and social

Baseline, impact, participation and management systems built as delivery controls across the asset lifecycle.

COMMISSIONING FRAME

DECISION

Assessment, management and stakeholder systems

TEAM PATTERN

Environment and social lead, field specialists, engagement and engineering support

STANDARDS

National requirements, IFC Performance Standards and Equator Principles

WHAT YOU RECEIVE

- 1 Baseline and impact-pathway register
- 2 ESMP and monitoring framework
- 3 Stakeholder and grievance operating plan
- 4 Commitment evidence and corrective-action routes

ACCEPTANCE PACK

An auditable commitment register with owners, dates, evidence, escalation paths and controlled changes.

Evidence boundaries and assumptions are stated before analysis. Performance values publish only with a dated approved source.
