

Project studies

Study definition that keeps options, design criteria, estimate maturity and sanction conditions in one controlled system.

COMMISSIONING FRAME

DECISION

Scoping through sanction

TEAM PATTERN

Study manager, discipline engineers, estimator, scheduler and reviewers

STANDARDS

AACE estimate classification, reporting codes and lender requirements

WHAT YOU RECEIVE

- 1 Study basis and option register
- 2 Design criteria and interface schedule
- 3 Estimate basis with stated AACE class
- 4 Risk, opportunity and sanction pack

ACCEPTANCE PACK

A version-controlled study package with definition gaps, estimate maturity and decision conditions stated.

Evidence boundaries and assumptions are stated before analysis. Performance values publish only with a dated approved source.
